Description

Citadel Stone’s Black Basalt Bush-Hammered 24″ × 12″ × 3cm is the contemporary large-format hardscape specification of choice across the United States. The 24-by-12-inch rectangular face is the format that defines modern paving architecture — drawing the eye along the length of a driveway or pathway, anchoring patios and pool decks in a strong directional rhythm, and giving commercial plaza paving the visual scale appropriate to large public spaces. The 3cm (1-1/4 inch) thickness is the US stand...
