Description

Black Basalt Honed Stone — forged by volcanic fire and perfected by 50 years of Citadel Stone craftsmanship. Our premium basalt is the world’s toughest natural stone: three times harder than granite, with near-zero water absorption and a compressive strength that outperforms every competing material on the market. The satin-smooth honed surface brings deep jet-black sophistication to any floor or wall, indoors or out — without compromise. Deep jet-black to charcoal — the most dramatic natural st...
