Technical Specifications

Description

Grey Fossil Limestone Pavers — each slab a canvas of ancient marine life, frozen in stone for hundreds of millions of years. Hand-selected from premium Middle Eastern quarries by Citadel Stone, these fossil-rich grey limestone pavers bring unmatched natural character, depth, and storytelling to interiors and exteriors across the USA and worldwide. No two pavers are ever the same. Rich with visible fossil imprints — crinoids, ammonites & ancient shell fragments Cool blue-grey palette with natural...
