Ocean Reef Shellstone Brushed

Citadel Stone

Product Specification Sheet | Generated November 12, 2026

Product Information

Product Name	Ocean Reef Shellstone Brushed
Category	Limestone Slabs, Tiles
Finish	Brushed

Technical Specifications

Description

Citadel Stone’s Ocean Reef Shellstone Brushed brings together one of the most distinctive natural stones in commercial production with the surface finish most appropriate to its primary use environment — warm-climate exterior hardscape. Ocean Reef Shellstone is a fossiliferous limestone formed in ancient reef and coastal sediment environments, and its surface carries the visible traces of that origin: shell fragments, coral imprints, sea-life sediments, and the porous structure characteristic of...
